MEDICINAL STRENGTH?

It stands to reason

that they cannot produce their proper effect if they have grown mouldy and stale through lying in stock for a long time.

Where we get the pull

is, that we sell ours out again as soon as they come into stock, and thus are constantly renewing. Add to this that we buy the **BEST** and in large quantities from the manufacturer, and that our price to you is the price at which most chemists buy from a wholesale house, you will at once perceive, not only the big saving you effect, but the certainty of getting genuinely Fresh and Pure Drugs when you deal with

TO BE HEALTHY

Your blood must be pure and not over-loaded with waste matter. The blood is the very essence of life, and conveys to all parts of the body the necessary nutriment; but, along with this, is also carried a constantly increasing accumulation of waste material, which finds an outlet in the Kidneys, Liver, Skin, etc. Should this increase pass a certain point, the blood gets out of order, quickly shown by the appearance of Boils, Pimples, Blotches, etc., on the skin, and if allowed to continue, Scrofula, Eczema, Erysipelas, Sore Eyes, Cancerous Growths, etc.; attacking the joints with Gout and Rheumatism. It is evident that the first care should be to purify the blood.
